DECLARATION

I John Anthony Robles II, birth name Juan Antonio Robles Melendez, stateless citizen, unofficially made a stateless person by the actions of the colonial power of the United States ask you to officially accept my full renouncement of US citizenship.

As a journalist who watched the US destroy Ukraine and bring the Nazis to power in an attack on peaceful Russia, I can in no way support the illegal wars and genocides of the US government, especially the continuing genocides of Russians, Palestinians, the vaccine genocides worldwide including against the American people, and the genocide of my people, the American Indians. I am a native of Puerto Rico and an Indian and do not recognize the US government, which is illegally occupying my homeland Turtle Island.

I support President Putin and support the Russian Special Operation and continue my journalistic work and publishing documents and materials exposing USA and NATO war crimes worldwide and along with my readers continue to face covert targeting against my site jar2.com by the USA and NATO countries.

I also renounced my US citizenship to the Russian Government when I applied for asylum, when I received asylum, when I applied for Russian citizenship twice and when I went to work for the Voice of Russia World Service. Thus, I renounced my USA citizenship five times in favor of the Russian Government.

I, John Anthony Robles, officially renounce US Citizenship to the Government of the United States of America and all of its bodies due to the aforementioned reasons and the obtaining of asylum in the Russian Federation as protection from the Government of the United States of America in 2008. I fully understand all of the consequences of renouncing US citizenship.

Signed and Sworn on this date, February 15, 2024.

Mr. John Anthony Robles II
